Dear Governor Correa:

I have enclosed data on surface and ground-water quality in the vicinity of the Jackpile Mine which was requested by Meade Stirland of Anaconda at our meeting on September 26. The enclosed information consists of recently collected, uncompiled data along with data abstracted from the two unpublished administrative reports: "Summary of Water-Resource Investigations on the Pueblo of Laguna" and "Test Drilling, water quality, water-level and stream discharge data for the Pueblo of Laguna, New Mexico 1975-1977".

These data are being sent for your review and transmittal to Anaconda. If there are any questions concerning the materials which I have enclosed, please let me know.

Sincerely yours,
